EDUCATION

SBBSU JALANDHAR

INDIA

Bachelor of Technology, Computer Science and Engineering

CGPA: 9.0

Aug. 2023 – July 2027

EXPERIENCE

Open Source Contributor:

SWOC 2025 :-

Present

- Contributing in Open Source projects by adding new features, fixing bugs, and improving functionality.
- Collaborating with other contributors to make more efficient and user friendly.

GSSOC 2024 EXTENDED :-

Oct. 2024 – Nov. 2024

- Worked on the **SwapRead** project, where I added new features to enhance user interface (UI).
- Fixed bugs and optimized the code to make the platform faster and more reliable.
- Gained hands-on experience with open - source collaboration by working closely with mentors and contributors.

PROJECTS

Low Bizon | HTML, CSS, JavaScript

- Created a platform for small businesses to showcase their products and services online.
- Features include customizable storefronts and a simple payment gateway integration.
- Focus on empowering local communities by increasing their digital tech.

Notess | HTML, CSS, JavaScript, MySQL

- Developed a platform for users to upload, buy, and sell notes, featuring separate admin and user panels.
- Designed a responsive interface, profile management, and intuitive navigation using HTML, CSS, JavaScript.
- Utilized MySQL for secure database management, ensuring efficient handling of user data, notes, and transactions.

Tam | HTML, CSS, JavaScript

- Developed a dynamic task management application allowing users to create, edit and organize to-do lists.
- Implemented features such as task prioritization, deadline tracking, and drag and drop functionality for task organization.
- Designed a responsive user interface to ensure smooth functionality across both desktop and mobile devices.

CERTIFICATES/ACHIEVEMENTS

- **400 + Problems** solved on coding platforms like Leetcode, Codestudio, GeekforGeeks, Codechef.
- **1st** Position in **Competitive Programming** contest at **dotslash** Hackathon, organized by Plaksha University.
- **Hackathon Participations:** Actively participating in hackathon to solve real world problems.

TECHNICAL SKILLS
